# FINDING TATANKA

**Documentary Screening with Director Jacob Bricca**

Kit Bricca was a leader of the Bay Area protest movements of the 1960s and 70s with a fierce passion for social justice, but found the transition from activist to breadwinner a challenging one. In this moving, psychologically complex documentary, filmmaker Jacob Bricca follows the extraordinary journey of his father Kit, a man whose uncompromising idealism changed the world but tore his family apart.
